I remember doing a lot of research on which College to send my daughter to after her 12th Board Exam. I wanted a smooth transition for her from a protected environment to a bigger environment where she is able to spread her wings under the benevolent watch of experienced and effective mentors. UBS more than met all my requirements.

A B-school, equipped with an amazing campus facilities, a collaboration with a globally recognized University, faculty with Industry experience, discipline and an amazing curriculum with a wide spectrum of activities and projects which push the students to undergo rigorous practical assignments, compulsory summer internship, presentations, industrial visits et el. These make them Industry ready with oodles of confidence to face the rigors of real life.

I have seen my daughter an otherwise reticent personality flourish into a confident young women ready to face any situation due to the exposure she has got across case studies, cultural events, marketing events hosted by UBS. UBS builds the spirit of entrepreneurship in the students.

Before I sign off I want to highlight the personal attention that the faculty members bestow on the students and guide them towards the desired goals and the administrative staff who can be relied upon in case your child needs help be it ill health, ensuring discipline in the student's traffic to and from the campus etc.

A big thank you to Universal Business School in shaping my daughter's personality and making her ready to transition smoothly into a fruitful career (UBS ensures placements for each of their student).

I am a Government servant by occupation and father of Tushar Patra who's currently pursuing an integrated MBA program at Universal Business School. Looking for a college is a major and tough decision for any parent but when I visited the UBS campus I was very impressed and was sure that my child would be very happy with it. It's a lush, green campus with peace and quiet.

I decided to go for UBS, when we came to know of the degree provided by a reputed international university - Cardiff Met. University. The professors are knowledgeable and the courses promotes free thinking. It is also endorsed by 60 global CEO's who share the nuances of the corporate world. It's a good place to stay and enhance yourself and your skills. The stay at UBS is a whole

new experience. The thrill and feeling of belonging as one as a part of nature across the sprawling campus on the foothills of Mountains, away from the bustle of Mumbai presents an unique opportunity to learn, grow and explore alongside experienced faculty and proficient modules which enable a student to rise from good to great.

The opportunity to study at UBS is one that is regretful to miss. The place is a melting pot of culture and heritage, permits the student to get along with like-minded and driven people to become a truly global corporate citizen. It was a wonderful decision on behalf of a parent and we are truly satisfied with the experience in the last 3 years.

of UBS.

At UBS, there are coach mentee sessions and different clubs like CSR, sports and others which makes Hrithik substantially more mindful and proficient to examine in the western culture (USA,UK). UBS has been a splendid stage for appearing and encountering ones ability and the child is prepped and prepared for the corporate world and comprehends everything, which is extremely fundamental.

I am very content with my wife's choice and placing him in UBS for the Cardiff Met University program. *UBS DOES TRANSFORM LIVES**

The UBS BBA program ensures industry readiness preparing students for the corporate world. I can tell that UBS comprehends the business world and has grown rapidly, ensuring student's lives are significantly more simpler after graduation. The UBS faculty team is so experienced in industry, committed, very accessible and have mentored my son to give his best. The help of the faculties has been remarkable. They are happy to attempt new things and help my son develop and learn at her very own pace. They additionally esteem and regard my contribution as a parent.

The placements team and the ELC plays a vital role where students gets employability score within the duration of course and determine the capability before sitting in the world of business. My son has recently joined the school, and in a short span he was promoted to Team Leader-Marketing of ELC and furthermore a BRAND AMBASSADOR

Mr. Bijay K. Pandey

In this college for better placement there are mentor mentee sessions and various clubs like CSR (corporate social responsibility). The amazing environment, impressive infrastructure filled with top-notch faculty, thus making fantabulous experience for Shruti. UBS provides a brilliant platform for showcasing one's talent and it perfectly grooms people for the corporate world. Students get the corporate exposure in the college because of ELC company (World's 1st company run completely by the students). The hostel facility is excellent with air-conditioned well furnished rooms.

The fees is quite high but quality of education which they provide is worth it.

UBS program is geared towards industry and practical learning which makes the course curriculum so rich, innovative and the students ready for the corporate world. I can tell that UBS has understood that business world is growing up so quickly, for that reason, the college has provided students with the best tool to make the things much more easier after graduation. The faculty of UBS are so experienced and industry oriented, available most of time to coach and monitor the students and provide the best. Most of the faculties have been in the industry and have understood so well that studies are not only about theory, it is more about practicing.

Dr. Pillai Global Academy

As parents, we had some reservations in our hearts regarding UBS with regard to its remote location. But once we visited the campus and met the esteemed Faculty, not only did our doubts diminish, but UBS also proved to be one of the best institutions where your teaching faculty is concerned.

While you gave your best to your students, little did you realise that along with the challenges, you were giving an opportunity to students to grow into strong and virtuous human beings under your care as you streamlined the students' potential.

As for our son Siddhant, his enthusiasm in life has strengthened considerably and now, he is confident to achieve the unimaginable in life as he credits his success to each one of you. He being a topper only reflects the teaching, training and the unmatched educational opportunity provided by your institution. His current experiences in Canada continue to match with the knowledge provided by you which has proved to be a vital element in meeting the growing demands of a globalised world.

I take this opportunity to reiterate my appreciation for the wonderful work you are doing collectively as an institution. May the lord continue to walk with you as you relentlessly strive for the betterment of the student community and the society and world at large.
